

WHY IS TAKE 3 BETTER?

Take 3 has been building the highest quality auto transport trailers for over 20 years. We take pride in our innovation and customer satisfaction.

✓ **BRAKES on all axles**

Take 3 Trailers have all-axle braking. We will not put a trailer on the road that has less than full braking capacity. Less than full braking ability leads to over-use of existing brakes (leading to more frequent replacement) as well as leaving no margin for safety in the event of emergency stops.

✓ **E-COAT MOD WHEELS**

Our trailers are equipped with steel powder-coated wheels that give you the custom look with the highest rated wheel available in it's class. Cracking in wheels of lesser quality can lead to tire blow outs and accidents. Be sure your wheels are rated as high as your tires.

✓ **WHEEL LASHING TIE-DOWN SYSTEM**

Take 3's EXCLUSIVE punched and formed deck provides for use of a wheel lashing tie-down system. By securing the wheels of the vehicle, instead of the frame, you never risk damaging your load. Tying down the tires allows the vehicle to use it's own suspension to absorb the shock of the road, making the trailer, truck and load ride softer and smoother.

✓ **TUBULAR FRAME**

The structural frame of most of our trailers (excluding the new Drop Deck) are made of steel tubing for exceptional strength and durability. After the trailer is complete, we clean, primer and paint it. This assures that your main structural steel will not rust from exposure to road grime, water, gravel and other abrasives.

✓ **7K AXLES - 8K SUSPENSION**

Our standard trailers come equipped with specially manufactured pre-cambered 7K axles that are reinforced at the factory with a channel iron support. Because auto transport trailers get stressed on rough roads and the occasional accidental over-load situations, we provide this extra measure of protection for safety and durability of our trailers. Our trailers come standard with 6-leaf springs and equalizer 8K suspension. Heavier suspension gives a more stable, safer ride.

✓ **MADE IN THE USA**

We build each trailer in our plant in Brenham, Texas. We do not import our trailers from Mexico so we can maintain excellent quality control and guarantee that the materials used in your trailer meets all DOT and FMVSS requirements.

WHAT IS NATM AND WHY DOES IT MATTER?

NATM is the National Association of Trailer Manufacturers. Members voluntarily comply with all industry standard as well as all DOT Federal Motor Vehicle Safety Standards. Take 3 is committed to building the safest and highest quality auto transport trailers.

**NATIONAL ASSOCIATION OF TRAILER MANUFACTURERS
(NATM)
urges you to check for the NATM Compliance Decal before
buying your next trailer.**

**Manufacturers proudly displaying this decal signify they
comply with established industry standards and U.S. DOT's
Federal Motor Vehicle Safety Standards (FMVSS).**

TAKE 3 TRAILERS, INC.
Manufacturer's Limited Trailer Warranty

Take 3 Trailers, Inc. (Take 3) expressly warrants to you, the original purchaser of a trailer manufactured by Take 3, that on the date of purchase by you, the product was free from defects in the composition of materials and workmanship and was in accordance with the industry standards of such products. This warranty covers the main trailer structure, consisting of side rails, floor cross members, sub frame and all other parts manufactured by Take 3 that attach to the main trailer structure.

LIMITED PAINT WARRANTY

Take 3 Trailers, Inc. warrants its paint finish to be consistent with industry standards for one year after the date of original retail purchase, with the exceptions of "normal use" limitations set forth below and deterioration due to use or exposure, such as chipping, scratching, fading, road salt or tar, damage by animals or pressure washing. Warrantable paint repairs are limited to spot repairs and blending consistent with standards in the trailer industry.

DURATION OF THIS WARRANTY AND NOTICE REQUIREMENTS

This limited warranty is applicable to defects in components manufactured by Take 3 and which defects are discovered within a period of one (1) year in the case of the main trailer structure and all other parts manufactured by Take 3, that attach to the main trailer structure, from the original purchase date. For warranty service, contact the Take 3 dealer from whom you purchased the trailer or the Warranty Manager at Take 3.

Other restriction apply. Please request a copy of full warranty for further details

Pull the best! Pull a "Take 3" not a "Fake 3"
